

Model ER7210

Electrical Resistance Probe, Retrievable with Large Flush Element for High Pressure (HP™ and MH™) Access Systems

Model ER7210 is a fixed-length, flush-mount, retrievable, electrical resistance probe for use with HP™ and MH™ high pressure access systems. These probes are ideally suited for applications where the probe element needs to be flush with the wall of the pipe. The probe assembly consists of an insertion rod with an element, a hermetically sealed connector, and a hollow plug nut, which are all welded in place. The hollow plug nut on the probe screws into the hollow plug of the access system. This allows the probe to be installed in the process, using a retrieval tool and service valve, without process shutdown. The insertion length (I.L.) can range from a minimum of 1.75" up to any length specified by the customer in 1/8" increments, using the formula:

$$\text{I.L.} = \text{PD} + \text{WT} + 1.75''$$

(where PD = penetration depth, WT = wall thickness)

For top-of-the-line, flush-mount monitoring, PD = 0.

Note: Formula valid for access fitting heights of 5.25" (HP) and 5.5" (MH).

Two element options are available - the standard flush element which has a geometry that is specially designed to optimize element resistance, and the long strip element which is designed for use in systems where conductive deposits could bridge the standard element.

Specifications:

Probe Body - 316 Stainless Steel

Element Seal - Epoxy

Fill Material - Epoxy

Temperature Rating - 500°F / 260°C

Pressure Rating - 3600 PSI / 245 Bar

Mounting - High Pressure (HP™ or MH™) Access System with Hollow Plug

ER7210 Ordering Information

Model							
HR	Electrical Resistance Probe for High Pressure (HP™ and MH™) Access Systems						
Mounting Material							
2	316						
3	C276						
Connector Type							
1	Small connector						
2	Standard connector						
ER Element Options							
D3	FL10 Flush Mount - 10 mil thickness (5 mil useful probe life)						
E3	FL20 Flush Mount - 20 mil thickness (10 mil useful probe life)						
F3	FL40 Flush Mount - 40 mil thickness (20 mil useful probe life)						
R3	LS10 Flush Mount Long Strip (Large Header) - 10 mil thickness (5 mil useful probe life)						
S3	LS20 Flush Mount Long Strip (Large Header) - 20 mil thickness (10 mil useful probe life)						
Length (Round calculated length down to the nearest 1/8")							
XXXX	Length in inches, stated in 2 decimal place format (Ex: 6 1/8" = 0612)						
Element Alloy							
XXX	Use Code in Alloy Chart						
ER Probe Options							
00	No shield
