

# Model LP7210

## Linear Polarization Resistance Probe Retrievable with Flush-Mount 3-Electrode Endcap for High Pressure (HP™ and MH™) Access Systems

**Model LP7210** is a fixed-length, flush-mount, three-electrode, retrievable, linear polarization resistance probe for use with HP™ and MH™ high pressure access systems. These probes are ideally suited for applications where the probe electrodes need to be flush with the wall of the pipe. The probe assembly consists of an insertion rod, a flush-mount three-electrode endcap, and a six-pin military connector. The hollow plug nut on the probe screws into the hollow plug of the access system. This allows the probe to be installed in the process, using a retrieval tool and service valve, without process shutdown. The probe's three-electrode endcap is filled with an epoxy seal. Electrodes are not replaceable. The insertion length (I.L.) can range from a minimum of 1.75" up to any length specified by the customer in 1/8" increments, using the formula:

$$I.L. = PD + WT + 1.75"$$

(where PD = penetration depth, WT = wall thickness)

For top-of-the-line, flush-mount monitoring, PD = 0.

**Note:** Formula valid for access fitting heights of 5.25" (HP) and 5.5" (MH).

### Specifications:

**Probe Body** - 316 Stainless Steel

**Endcap Seal** - Epoxy

**Fill Material** - Epoxy

**Temperature Rating** - 500°F / 260°C

**Pressure Rating** - 3600 PSI / 245 Bar

**Mounting** - High Pressure (HP™ or MH™) Access System with Hollow Plug

## LP7210 Ordering Information

Model							
HL	Linear Polarization Three-Electrode Probe for High Pressure Access System						
	Mounting Material						
	2	316					
	3	C276					
	Connector Type						
	2	Standard connector					
	LP Electrode Options						
	4	Three-electrode integral flush type					
	6	Three-electrode integral flush adjustable type					
	Seal Type						
	1	Epoxy					
	Length (Round calculated length to the nearest 1/8")						
	XXXX	Length in inches, stated in 2 decimal place format (Ex: 6 1/8" = 0612)					
	Electrode Alloy						
	XXX	Use Code in Alloy Chart					
HL	2	2	4	1	0612	XXX	Example of Probe Ordering #
